- 2,100.00 euro for the property under point 2,
- 3,000.00 euro for the property under point 3,
- 92,000.00 euro for the property under point 4.

- in each subsequent step, the minimum bid may be raised by 1,000.00 EUR,
- beside the offered price, tax, costs of ownership transfer, and all other possible costs are charged to the buyer.

III. CONDITIONS OF PUBLIC AUCTION

- The property is being sold on 'as-is' basis, therefore the bankruptcy debtor is not accountable for material or legal defects of the property which is the subject to sale.
- By approaching the auction, the buyer confirms the knowledge of the subject to sale. The potential buyers may view the subject to sale and the associated documentation prior to public auction, therefore any complaints relating to lack of knowledge of the subjects to sale and possible missing documentation shall be ignored.

- Public auction is open to natural persons who are citizens of the Republic of Slovenia or legal persons in the Republic of Slovenia and foreign natural and legal persons under conditions of reciprocity.
- Before the auction, all bidders shall pay security in the above mentioned amounts. The bidders shall transfer security payment to the bankruptcy debtor's bank account **SI5664000000028335 (Primorska hranilnica d.d.) with the label »security deposit for trade marks/know how«**, no later than one workday before the public auction. Bids may be placed only by those who paid the security or submitted a bank guarantee, or an inflow of security payment is unambiguously noted in the bankruptcy debtor's bank account, or the auctioneer will check the security payment on their website.
- Security deposit shall be given back to the unsuccessful bidders, interest-free, in three days after the conclusion of the public auction.
 - The buyer has to pay earnest money as a sign that the contract has been concluded. In accordance with Article 333, Paragraph 6 of ZFPPIPP, the security payment of a successful buyer, who concludes the contract, is considered earnest payment as a sign that the contract has been concluded.
 - A successful buyer's security payment is recognised as earnest money confirming the conclusion of the sales contract.
 - The bidder who is successful at auction is obliged to conclude the sales contract which shall be drawn in accordance with the provisions set in ZFPPIPP within 3 workdays. In case the bidder does not comply with provisions set under this point, the paid earnest money is included in the bankrupt's estate.
 - Deadline for the settling of the purchase price shall not be longer than 3 months after the conclusion of the sales contract.
 - If the payment of sales sum is late by more than 15 days after the deadline, the bankruptcy debtor may terminate the contract without giving the buyer another deadline for completion of the contract (payment of sales sum). In such case earnest money shall be included in the bankrupt's estate. The buyer may decline the payment of sales sum until the court's decision on the consent to the sales contract becomes final.
 - The sales contract is concluded under suspensory condition, which means that the court shall give its consent to the contract, and under resolutory condition which is met if the court does not give its consent.
 - With the payment of the sales sum and associated costs, the rights of the third parties to property which is the subject to sale cease.
 - The transfer of property to the buyer's proprietary possession shall be made after the prior payment of complete sales price, taxes, and sales costs. For completing the transfer of the subject to sale into the buyer's proprietary possession, provisions from Article 342, Paragraphs 2 and 3 of ZFPPIPP shall be considered. After the payment of sales price and on a proposal from the bankruptcy trustee, the court issues a decision on delivery to the buyer, by which it confirms that all conditions for the transfer/delivery of the property have been met.
 - The minimum price does not include any fiscal charge or general government charges. These are paid solely by the buyer and are included in the sales price. General government charges and taxes, in accordance with the legislation in force, as well as costs connected to the conclusion of the sales contract and transfer of ownership, are paid by the buyer.
 - If one or more bidders approach the auction and none of them, despite having paid earnest money, offers the minimum price or places a bid, it is considered that all of them have withdrawn from the auction and the bankruptcy debtor keeps the security as forfeit money.
 - The participant who did not succeed at public auction, creditor, beneficiary with the pre-emptive right or the third party is not entitled, neither in bankruptcy proceedings nor in any other proceeding, to seek the enforcement for revocation or declaration of annulment of the sales contract, for the conclusion of sales contract under the same conditions with it, for revocation or declaration of annulment of legal transaction of disposal, with which the right to property or any other property right was transferred to the buyer, or for any other claim, the enforcement of which interferes with the rights which the buyer acquires with the conclusion or completion of the sales contract.
 - A buyer cannot be a person who is not allowed to conclude the contract in accordance with the provisions set in Article 337 of ZFPPIPP, except the beneficiary with pre-emptive right, who claims their legal pre-emptive right in accordance with ZFPPIPP. A written declaration confirming there are no impediments for concluding the contract stemming from Article 337, paragraph 1 of ZFPPIPP shall be submitted by the buyer before the conclusion of the contract.
 - The beneficiary with pre-emptive right is obliged to claim the potential pre-emptive right at public auction in accordance with Article 347 of ZFPPIPP.
 - For questions which are not explicitly set in this invite, the provisions from ZFPPIPP and other regulations shall be directly applicable, according to the conditions of the sale.

- The sales contract shall be concluded under suspensory condition that the court shall give its consent to the contract, and under resolutive condition which is met if the court does not give its consent to the sales contract, and under suspensory condition regarding the finality of Decision on delivery of property and resolutive condition if the decision on the delivery of the real estate is not final.
